

# NG-1530D-7

## SINGLE OR DOUBLE NEEDLE DIRECT DRIVE COMPOUND FEED LOCKSTITCH SEWING MACHINE

- Super large working space(335mm×125mm),
- Compound feeding
- Built-in LED light
- New type thread tension assy.
- Suitable for pre-sewing or ornamental top stitch : sewing for soft furniture, car seats and bags making fields.

**Features:**

1. Adopting built-in direct-drive motor and pneumatic control component to make it easily to maintenance, more safe and saving energy.
2. The whole series machine is equipped with auto reverse sewing and pneumatic foot lifter, -7 type is with auto thread trimmer. Which can enhance the production efficiency.
3. Instantaneously adjusting alternating amount of presser foot can climb over thick spots with high efficiency .
4. It can be set two different tension for clamp device and change quickly,by the shortcut button .
5. Horizontal large hook, It can sew maximum thread for 9 strands nylon thread (840D/3).
6. Extra large working space(335mm\*260mm), make sewing operation easily.
7. Built-in LED light.

**Application:**

Suitable for pre-sewing, abutted seam and decorative top stitch process for sofa, car seats and etc.

**Technical data:**

Model	Feeding	Needle	Stitches Length	Presser foot lift	Needle gauge	Working space
